MEMORANDUM FOR: William H. Price
O/FADCR
Department of State

SUBJECT: USCINCPAC Request for WEEDER Access

REFERENCE: Memorandum from Maj Gen James R. Clapper, Jr., USAF,
USCINCPAC/J2/3800/Ser 093-89, Dtd 18 Feb 1989

1. I have reviewed USCINCPAC's request for WEEDER access contained in the referenced memorandum. Based upon the justification contained therein, I concur in the request and recommend that access be granted. I am forwarding the request to DIA with a copy of this memorandum for their review and concurrence.

2. The IHC Action Officer for this matter is [redacted]
VChmn/IHC. Please inform him of its disposition. He can be reached at [redacted]

Subj: REQUEST FOR ACCESS TO WEEDER DATA BASE

1. Request that USCINCPAC be granted access to Weeder Data Base via the DIA COINS network.
2. This command is responsible for monitoring the development of crisis situations which may result in the use of military forces. We are particularly attentive to situations which may result in State Department coordinated Non-Combatant Evacuation Operations (NEO). Since the Defense Intelligence apparatus may initially not be focused for NEO, we are particularly interested in being able to access all available information concerning a potential crisis situation--especially information that may be available in State Cables. Past experience has shown that cables containing potentially important information are often not available to USCINCPAC. We believe that affording us Weeder access would be useful to insure that we are better apprised of crisis situations and better able to support contingency operations that involve close coordination with State.
3. We propose to limit access to Weeder to the USCINCPAC Political Advisor and a small number of J2 officers designated for crisis action management.

JAMES R. CLAPPER, JR.
Major General, USAF
Director for Intelligence
